

P400 Traditional POS

The Verifone P400, part of the Verifone Engage portfolio, leverages the latest Linux-based operating system for power and performance. Boasting a vibrant, color display, this PIN pad enhances user experience with a design that is as fast as it is stylish. Optional advanced commerce capabilities enable additional revenue streams at the point of sale via value-added services customized for individual shoppers. Pair the P400 with a host device for a complete consumer-facing solution that will be reliable for years to come.
