

# X990

## Smart POS Terminal

Verifone's X990 is a thin, lightweight, portable smart device featuring the Android 5.X operating system. This device meets various business demands with uncompromised security and platform scalability for seamless systems integration. The X990 is equipped with super fast mobile 4G communications for connecting to merchants, customers, and service providers. A rich software platform allows clients to create applications effortlessly, such as Apps for membership management, loyalty, couponing, online booking, inventory, and sales management. Furthermore, the X990 can connect remotely for dynamic management of business data and terminal equipment, improving merchants' efficiency with reduced maintenance effort. The X990 is the best choice for businesses in the era of mobile commerce.
